

About ARGOS Assessment Company

AAC, a division of ERC Dataplus, focuses exclusively on the administration of multirater assessment programs for companies and their consultants.

Since 1995, AAC has used state-of-the-art Internet-based and Interactive Voice (IVR) solutions to provide its clients with secure, reliable, confidential, user-friendly assessment administration and reporting.

ARGOS 3.5, AAC's recent upgrade, accepts all survey instruments. Its intuitive administration system empowers clients to manage their process; know the status of all participants at all times; and order and email reports directly from the System.

Other modules allow clients to store and text search assessment results, and collect and search both third-party assessments and employee career information.

AAC also provides assessment management services for clients seeking more comprehensive administration.

Leading Fortune 1000 companies and their consultants look to ARGOS Assessment Company to solve their multirater assessment challenges.

ERC Dataplus is headquartered in Norwalk, CT (USA).

ARGOS® v.3.5 MULTIRATER ASSESSMENTS

Screening, hiring and retaining the workforce you want - efficiently! SM

AAC uses state-of-the-art Internet and telephone (IVR) technology to deliver multirater assessments to clients directly or in collaboration with their development consultants.

ARGOS® Multirater Assessments is the most functional, cost-effective data collection, scoring and delivery system available. It offers medium and large organizations the accuracy, ability to configure, and delivery speed to meet their tactical and strategic multirater assessment needs.

Recent projects include working with a leading leadership development firm to deliver thousands of 360's to its client's facilities in South Africa, London and Hong Kong.

AAC offers the choice of a client/consultant managed or AAC managed process. Both offer clients the same data accuracy, speed of implementation, and report delivery. The principal difference is that if AAC manages the process for the client/consultant, AAC assigns a client service representative to assist the client in the creation of a 360, project launch, status tracking, and report delivery.

Benefits of Choosing ARGOS Assessment Company

- Guaranteed confidentiality and anonymity for raters
- Use your own assessment or build one from AAC's library of competencies and behaviors
- Standard or mapped assessments
